

Aerospace Manufacturers Representative and Business Development Consulting Company

Thank you for considering Edge Consulting and Sales. Edge Consulting specializes in telemetry and data acquisition systems. We are telemetry experts, dedicated to making the selection and integration of individual components and related instrumentation easier for our customers. Our continued success is credited to our drive, eagerness to learn, educational backgrounds, and pre and post sales support.

Proud members of the Range Commanders Council, TSCC, and AIAA

TELEMETRY	
 communications Telemetry & RF Products www.L-3Com.com/tw www.L-3Com.com/te	L-3 Telemetry & RF Products Telemetry & RF Products serves commercial, military and civilian customers with products that include TT&C satellite transponders, high data rate satellite transmitters, receivers, high-power amplifiers, encryption/ decryption units, video compression/decompression units, tactical intelligence radios, tactical HF/SSB and microwave radios, telemetry ground system components and solutions, specialized telemetry, surveillance, and network products.
 www.apogeelabs.com	Apogee Labs specializes in telemetry units applicable to Data Acquisition, Data Transport, Switching, Testing, and Signal Interfaces. Products include multiplexers, demultiplexers, encoders, digital matrix switches, data link and BER testing units, signal converters, and interface units.
 www.amergint.com	Amergint Technologies – Specializes in Satellite Ground and Test Systems, Satellite Signal and Data Processing, crypto mitigation, Network Architecture and Analysis, and hardware and software analysis and design. Products range from FEPS, T&C recorders, modems, Intelligent Test Environment for Signal Processing Systems, Software-Defined Signal and Protocol Processing, and Test Framework for Signal Processing Systems.
 www.ulyssix.com	Ulyssix Technologies is dedicated to providing the telemetry market with quality and innovative DSP based board level and integrated products. Among their board level products are digital bit synchronizers, frame synchronizers, decommutators, PCM simulators, and FM demodulators and modulator/calibrators as well. Their integrated telemetry systems offer complete solutions for both PCM/FM and FM/FM applications.
 http://www.jdasystems.com	JDA Systems , recognized as the industry leader in IRIG106 Chapter 10 recording, portable telemetry systems, and small phased array antennas. JDA develops and sells real-time data processing, reproduction, analysis, and display ground support systems.
 communications Cincinnati Electronics	L-3 Cincinnati Electronics offers leadership in the design and production of innovative infrared sensors, hybrid microelectronics and cryogenics for autonomous guidance, situational awareness, threat warning and targeting. They also specialize in the design, development and production of avionics and communications products for missiles, launch vehicles, and spacecraft.

EDGE Consulting is a next generation manufacturers' representative delivering exceptional solutions, enabling clients to excel in a competitive environment and achieve a rapid return on investment!

 <p>http://www.thermacore.com</p>	<p>Thermacore specializes in the custom design, development and manufacturing of highly engineered thermal management systems and components for a variety markets that include Military and Aerospace.</p>
 <p>http://www.l-3com.com/datron</p>	<p>Datron Advanced Technologies serves customers worldwide with fixed site and mobile antennas for telemetry, TT&C, satellite communications, and RSS ground stations. Its line of proven airborne products is used for commercial as well as military applications.</p>
	<p>L3 Nova Engineering develops and manufactures state-of-the-art wireless data communication systems, including Hypermod demodulators supporting all enhanced waveforms, and frequency agile Hypermod transmitters supporting multiple waveforms designed for harsh environments.</p>
 <p>www.xmacorp.com</p>	<p>XMA Corp. - XMA offers an array of passive RF and microwave components for industrial applications that include aerospace, communication, defense, and medical, among others.</p>
<h2 style="background-color: #0056b3; color: white; padding: 5px;">TIMING, SENSORS, and DATA ACQUISITION</h2>	
 <p>www.endruntechnologies.com</p>	<p>Endrun Technologies - Specializes in the design, manufacture, and sale of timing Network Time Servers, Time & Frequency Standards, and Distribution Amplifiers. These products are used in a variety of applications including computer networks, satellite ground stations, time and frequency distribution, radar system timing, and test range timing.</p>
 <p>www.micropac.com</p>	<p>Micropac Industries Inc provides microelectronic and optoelectronic components, modules, and assemblies to the military and aerospace industries. Micropac specializes in components designed for harsh military and/or space environments, and for industrial systems that cannot fail. Products range from SSRs, SSPCs, Hall Effect devices, photodetectors, emitters, and hybrid assemblies. They are experts in JANS and class K parts.</p>
 <p>www.griffithent.com</p>	<p>Griffith Enterprises is a leading high value added manufacturer of complex, specialized electrical interconnect harnesses, systems controls, and ground support equipment for Aerospace, military, and commercial customers.</p>
 <p>http://www.kamanaero.com/</p>	<p>KAMAN Aerospace is the World's Leader in High-Performance Noncontact Position Sensors. Based on eddy current measurements, Kaman sensors are capable of stable and repeatable sub-nanometer resolution, and can operate in the most extreme temperature and pressure environments. Kaman has been in business for over 40 years and offers both off the shelf and custom solutions.</p>
 <p>www.gage-applied.com</p>	<p>GaGe's extensive line of products include ultra high speed data acquisition cards, digital oscilloscope cards, analog and digital signal generation cards, arbitrary waveform generator cards, digital pattern generation cards, digital input cards and software packages to create a user-friendly human interface.</p>

*Edge Consulting does not represent all lines in all sales areas.

Director, Engineering Sales – California
