JDA Systems sign Edge Consulting and Sales to exclusive contract

Edge to provide next generations sales representation for California, Arizona, and Nevada.

Phoenix – August 18, 2008– Edge Consulting and Sales, the next generation in manufacturers’ representative, announces a new contract with JDA Systems.

“It is well known that JDA Systems is a leader in Irig 106 Chapter 10.”stated Rob Trepa, Edge’s Chief Sales Officer.” But we are equally excited at the opportunity to market their other products like the portable phased array antenna systems which are perfect for mobile applications.”

California, Arizona, and Nevada are covered in the agreement. Product lines covered will include Phased Array Antennas, Chapter 10 software and recorders, and variety of portable acquisition and test units.

“We were impressed with Edge’s high degree of energy and professionalism”, commented JDA President John Hueckel.”We are excited to work with Brad and Rob as they promote our products and company to the test community. We believe strongly in the performance of our systems and our ability to deliver complete systems within a month is a key differentiator of JDA systems.”

The products and services offered by JDA Systems will mesh well with other principals that are being developed. More information can be found on our website at www.edgeconsultingandsales.com Weekly Territory Reports to include forecast data, activity level, customer service issues, and competitive information will be delivered as part of the contract.

About JDA Systems

JDA Systems, recognized as the industry leader in IRIG106, small phased array antennas. JDA develops and sells real-time data processing, reproduction, analysis, and display ground support systems. With all our products we also provide world class engineering and technical services to military and commercial customers.
